

Module 3 In-class Coding Submission

Please complete the following skeleton codes:

Car.java (<https://uciunex.instructure.com/courses/21820/files/3143022?wrap=1>)_ 

(https://uciunex.instructure.com/courses/21820/files/3143022/download?download_frd=1) 

Book.java (<https://uciunex.instructure.com/courses/21820/files/3143023?wrap=1>)_ 

(https://uciunex.instructure.com/courses/21820/files/3143023/download?download_frd=1) 

Student.java (<https://uciunex.instructure.com/courses/21820/files/3143025?wrap=1>)_ 

(https://uciunex.instructure.com/courses/21820/files/3143025/download?download_frd=1) 

Car Program Grading Rubric:

• Class Definition (20 points)

- Correctly defines the `Car` class with attributes and methods: 7 points
- Implements the constructor with correct parameter names: 4 points
- Implements getter and setter methods for attributes: 7 points
- Implements the `drive` method with a correct message: 2 points

• Main Program (10 points)

- Creates a `Car` object with correct attributes: 2 points
- Demonstrates the use of getter and setter methods: 2 points
- Successfully calls the `drive` method and displays the message: 4 points
- Properly formats and comments the main program: 2 points

• Documentation and Comments (5 points)

- Clear and concise comments in the class definition: 2 points
- Properly formatted code with indentation: 3 points

- **Total Points for Car Program (35 points)**

Book Program Grading Rubric:

- **Class Definition (20 points)**
 - Correctly defines the `Book` class with attributes and methods: 7 points
 - Implements the constructor with correct parameter names: 4 points
 - Implements getter and setter methods for attributes: 7 points
 - Implements the `read` method with a correct message: 2 points
- **Main Program (10 points)**
 - Creates a `Book` object with correct attributes: 2 points
 - Demonstrates the use of getter and setter methods: 2 points
 - Successfully calls the `read` method and displays the message: 4 points
 - Properly formats and comments the main program: 2 points
- **Documentation and Comments (5 points)**
 - Clear and concise comments in the class definition: 2 points
 - Properly formatted code with indentation: 3 points
- **Total Points for Book Program (35 points)**

Student Program Grading Rubric:

- **Class Definition (20 points)**
 - Correctly defines the `Student` class with attributes and methods: 7 points
 - Implements the constructor with correct parameter names: 4 points
 - Implements getter methods for attributes: 7 points
 - Implements methods for calculating total marks, average marks, and grade: 2 points
- **Main Program (10 points)**
 - Creates a `Student` object with correct attributes: 2 points

- Demonstrates the use of getter methods: 2 points
- Successfully calls methods to calculate total marks, average marks, and grade: 4 points
- Properly formats and comments the main program: 2 points
- **Documentation and Comments (5 points)**
 - Clear and concise comments in the class definition: 2 points
 - Properly formatted code with indentation: 3 points
- **Total Points for Student Program (35 points)**

Overall Total Points (for all three programs): 100 points

Points 100
